There's no way back, I'm going in.  
Cold sweat running down my skin

Never felt like this before  
But I am right, I have to kill the core.

I feel the cold steel in my hand  
The sight is free from where I stand

Funny just how things can change.  
From god to foe, come on let's rearrange.

[Chorus]  
Time to die  
Now your life's gone by.  
Free our souls  
Give back all you stole.

[Fisher:]  
My mission is fulfilled  
I'll die, but be living still.

I'll live eternally

[Chorus]  
Time to die  
Now your life's gone by.  
Free our souls  
Give back all you stole.

Die for me  
Sleep eternally  
Free our souls  
Give back all you stole.
