Everybody likes the easy way out
Nobody tells it like it is no more
You took a hit and then you blew it out
The light inside that shine before

Never had the heart to love this much
Never felt enough to call it hate
If you can let a thing screw you up
It's not too late

It's always so close
Then you pull it away
And anything goes
Then it goes astray
Now what are you left with at the end of the day, Yeah
It's all love, it's all love, it's all love

Nothing left but the sound of doubt
A pouring out of the heart that you live in
No one tried to help you figure it out
Does anybody see the signs you've given

Never had the heart to love this much
Never felt enough to call it hate
If you can let a thing screw you up
It's not too late.

It's always so close
Then you pull it away
And anything goes
Then it goes astray
Then what are you left with at the end of the day, Yeah
It's all love, it's all love, it's all love,yeah

Is anybody listening to what I'm trying to feel
Is anybody feeling anything is real
Is anybody really gonna help me feel this only inside of
you

It's always so close
Then you pull it away

And anything goes
Then it goes astray
Then what are you left with at the end of the day yeah
It's all love it's all love it's all love

It's always so close
Then you pull it away
And anything goes
Then it goes astray
Then what are you left with at the end of the day
It's all love it's all love it's all love...
