You got to know when
Your heart is open
Gotta keep believing in your
Faith in me baby
And I wont be leaving
Coz I knw you need me
Hold on to your heart like a fantasy
Coz in this game of life
Hold your head up high
You're a child of light
You can shine all over the world
Chorus:
You're not alone it's not just you and I
You don't need to hide your dreams
For the rest of your life
Just like the stars that shine up in the sky
I know there's hope
Coz life is a miracle
Hey little lady
Reach out and feel it
There's a future out there waiting
Somewhere for you
But you gotta want it
SAY YOU REALLY MEAN IT GIRL
IT'S THE ONLY THING that's HOLDING BACK THE TRUTH
Coz in this game of life
Don't you let nobody tell you
Hold your head up high
Coz they can't do the things that you do
You're a child of light
Like the coulors on the rainbow
You can shine all over the world
Chorus...
