

Superman Is Dead "UTW"

Visit "[UTW](#)" on MotoLyrics.com

Today we sing along
About the dream we had
Today we'll do something
This is what we're believing
Nothing can bring us down
Nothing can kill our hopes
A better place for you and me...
This world we're living

Even though sometime we're down
No... No... Brothers don't cry...

This war and violence
It seem like never ends
And all the hunger
We just need more education
Stay put and never stop
Do you everything you can
To fix your self and everything
That is around you...

Even though sometime we 're down
No... No... sisters don't cry...

If you wanna change the world
Change the world today
No more sorrow no more tears
No more fuck the world...
If you wanna change the world
Change the world today
No more sorrow no more tears
Let's do... some thing now...
