Big naturals for the declassé monsters
For this time is no ordinary time
Hovering over their gleaming terrible skin machines
Having wonderful, having horrible, having monstrous
times

The plug, the site, the stream, the sound, the stretched
inseam, the laser beam
The switch, the boot, the key, the screen electric sea,
the apple tree

Physician astronauts that flaunt their scalpels
In this time that's no ordinary time
Flim flam their way across a surgical sky
A wink that comes from an irradiated eye

The plug, the site, the stream, the sound, the stretched
inseam, the laser beam
The switch, the boot, the key, the screen electric sea,
the apple tree

The plug, the site, the stream, the sound, the stretched
inseam, the laser beam
The switch, the boot, the key, the screen electric sea,
the apple tree

You saw them then, but they were somewhere else
You saw them then, but they were somewhere else
You saw them then, but they were somewhere else
You saw them then, but they were somewhere else

You saw them then, but they were somewhere else
You saw them then, but they were somewhere else
You saw them then, but they were somewhere else
You saw them then, but they were somewhere else

You saw them then, but they were somewhere else
You saw them then, but they were somewhere else
You saw them then, but they were somewhere else
You saw them then, but they were somewhere else

You saw them then, but they were somewhere else
You saw them then, but they were somewhere else
You saw them then, but they were somewhere else
You saw them then, but they were somewhere else
