Defcon goes 1 thru 5, 1 thru 5
So we can know when to run and hide
Defcon goes 1 thru 5, 1 thru 5
So we can know when to run and hide
Defcon goes 1 thru 5, 1 thru 5
So we can know when to run and hide
Defcon goes 1 thru 5, 1 thru 5
So we can know when to run and hide...

Norad is where we go to get away
Because we know Norad is where we have to go to stay
Norad is where we go to get away
Because we know Norad is where we have to go to stay
Norad is where we go to get away
Because we know Norad is where we have to go to stay
Norad is where we go to get away
Because we know Norad is where we have to go to stay

Defcon...

Defcon goes 1 thru 5, 1 thru 5
So we can know when to run and hide
Defcon goes 1 thru 5, 1 thru 5
So we can know when to run and hide
Defcon goes 1 thru 5, 1 thru 5
So we can know when to run and hide
Defcon goes 1 thru 5, 1 thru 5
So we can know when to run and hide

Norad is where we go to get away
Because we know Norad is where we have to go to stay
Norad is where we go to get away
Because we know Norad is where we have to go to stay
Norad is where we go to get away
Because we know Norad is where we have to go to stay
Norad is where we go to get away
Because we know Norad is where we have to go to stay

Everybody's got to run and hide
From the city to the countryside
We go to Norad to survive

When Defcon goes from 1 to 5

When Defcon goes from 1 to 5
Everybody's got to run and hide
From the city to the countryside
We go to Norad to survive

We go to Norad to survive
When Defcon goes from 1 to 5
Everybody's got to run and hide
From the city to the countryside

City to the countryside
We go to Norad to survive
When Defcon goes from 1 to 5
Everybody's got to run and hide

Everybody's got to run and hide
From the city to the countryside
We go to Norad to survive
When Defcon goes from 1 to 5

When Defcon goes from 1 to 5
Everybody's got to run and hide
From the city to the countryside
We go to Norad to survive

We go to Norad to survive
When Defcon goes from 1 to 5
Everybody's got to run and hide
From the city to the countryside

City to the countryside
We go to Norad to survive
When Defcon goes from 1 to 5
Everybody's got to run and hide
