(Terry Woodford/Clayton Ivey/Barbara Wyrick)

I'm not asking you to change  
You are what you are  
But I can only give so much  
It only goes so far

And I know that we both do things  
And don't it meant were wrong  
Sometimes if we feel guilty  
We'd be much better off

We love each other deep down inside  
Why not talk our problems out  
And push our pride aside?

Bend a little  
Give a little  
That's all we gotta do

Bend a little  
Give a little  
That's all we gotta do

You've always have to be someone  
To give more than to share  
But I won't ask that much of you  
Just show me that you care

I know there are things I won't do  
That you'd wish I would  
If you would meet me halfway,  
I believe I could

Let's not try to hold off on your tems or mine  
Before we lose each other,  
Let's reach upon our minds

Bend a little  
Give a little  
That's all we gotta do

Bend a little  
Give a little  
That's all we gotta do

[Guitar solo]

Bend a little  
Give a little  
That's all we gotta do

Bend a little  
Give a little  
That's all we gotta do

Bend a little  
Give a little  
That's all we gotta do

Bend a little  
Give a little  
That's all we gotta do

Bend a little  
Give a little  
That's all we gotta do

Bend a little  
Give a little  
That's all we gotta do

Bend a little  
Give a little  
That's all we gotta do
