(Clarence Paul/Stevie Wonder)

Sunset, sunset

It's sunset, it's sunset

You went and left happy

You're all alone

You turned and walked away

About this time of day

It was always sunset

Sunset

I didn't want you to see me cry

So I turned my head

To hide the tears in my eyes

I turned when evening shadows fall

That's when I miss you most of all

And oh, it's sunset

Oh, sunset
