[Chorus:]

Take a look inside, baby  
Try to see above your foolish pride  
Take a look inside, baby  
Love can work out if you'll give it a try

You'rre standing on a mountain way up high  
(Way up high, way up high)  
Looking down on the little people who cry  
They cry out for you for the understanding they need  
But you turned away, contend to let it be

[Chorus]

Material things are the hold of life  
'Cause they can't love and hold you tight at night (Uh-uh)  
Though it's true that money can buy many, many things  
I thought that it can provide the joy that true love brings

[Chorus]

Take a look inside, take a look inside  
Take a look inside, yeah, yeah, yeah  
Take a look inside, take a look inside  
Take a look inside

Society forces you to be someone you're not  
(Someone you're not, uh-uh)  
So you stand alone on life's mountain top  
Closing your ears from the cries from below  
But there'll come a time you have to let your feelings show

[Repeat Chorus 'til fade]
