Only you can make me happy
Happy
Only you can make me happy

I never thought that
I'd find someone like you
I feel hypnotized
With the things you do
I'll never let you go
No, you're so right for me
I have to let you know
Forever you and me

Only you can make me happy
Happy
Only you can make me happy
Happy

You must be heaven sent
Sent into my life
And I compliment you baby, baby
We have a lot that's strong and true
It's true in every way
I want to be with you each and every day

Only you can make me happy
Happy
Only you can make me happy
So happy
Only you can make me happy
Happy, happy
Only you can make me happy
So happy, yeah

Hello? howre you doing, baby?
You know, I was just thinking of you
I'm glad you called are you coming right over?
Beautiful, baby I'll be waiting
I love you too.
