My heart is filled with so much love
And I need someone I can call my own
To fall in love that's what everyone's dreaming of
I know this feeling oh so strong

Life is too short to live alone
Without someone to call my own
I will care for you
You will care for me
Our love will live forever

Shower me with your love
Shower me with the love that I long for
Shower me with your love
Shower me with the love I've been waiting for

I close my eyes
And pray all my wishes come true
Everynight I go to sleep
Until you're mine I'll wait for you endlessly
Can't you see

Fairy tales they do sometimes come true
If you believe it could happen to you
Like the stars the shine
Way up in the sky
Our love will live forever
Chorus

[Music plays]

Like the stars the shine
Way up in the sky
Our love will live forever
Live forever

Shower me with your love
Shower me with the love that I long for
Shower me with your love
Shower me with the love I've been waiting for

Shower me with your love
Shower me with the love that I long for
Shower me with your love
Shower me with the love I've been waiting for
