Forget about the surf
You gotta know that it's royal
Scooping up the ones
With the suntan oil

Only one thing better than the beach and the curls
Teenage girls

Teenage girls - we like em a lot
Teenage girls - don't you know they're hot
Teenage girls - they know what to do
Teenage girls - they'll give it to you

You really know it's bitchin
The stereo and the sand
When there aren't any tubes
I'm at the lifeguard stand

Hanging with the locals
We put the pressure on the squirrels
Cruising the beach for more
Teenage girls

Teenage girls - they really make the scene
Teenage girls - they occupy my dreams
Teenage girls - they like to get it on
Teenage girls - they're close to Avalon

Teenage girls - they really make the scene
Teenage girls - I ef your pie in my dreams
Teenage girls - they like to get it on
Teenage girls - from the coast to to Avalon

Teenage girls - they make us want to shout
Teenage girls - trying to wear us out
Teenage girls - they get so tan
Teenage girls - make you feel like a man
