The grass is greener on the other side  
The problem can be solved differently  
The mind must resist  
The majority can be wrong

Against the wind mills  
Against the conventions  
Against the human inhumanity  
With me as an only ally

The knights with the swords  
The explorers with the ideas  
Sangrail must be somewhere over there  
Cost doesn't matter

Is the battle already lost?  
Is our blood worth to bleed?  
Do you want to stop us?  
Will you stay in the row?

The field covered with dead intentions  
Victory for the strait jacket  
But new crusaders are on the way  
To not lose themselves
