[T.I.]

Chevy, super clean, two or three screens,

watch a bigga be, to the left i lean,

50 karats in the crown, niggas no more scam

just to let you sucker niggas know, im the king,

this green, i smoke, we call it drow,

its dead-liest, from memphet Tenn,

dont turn this 'to a murda scene,

im paranoid, tone misquoted,

been shootin out since my early teens,

but ima drop dat note, grab me under sixteen,

you can bring all tha niggas you wanna bring,

hey, i thought you was runnin things,

all you did was run the screens,

must be out his mind, think a tip wont touch him,

see it on tha bush, let it burn like Usher,

click, click, bang, you can end tha discussion,

aint shit sweet, cause i seen you unpleasant,

i still would spray broad day aint nothing,

the lilac, one AK doin' something,

im immuned to tha drama,

act a foo' if ya wanna,

lean in my pocket, 40 calb. by tha' stomach,

he actin like he want it, ima show a nigga somethin',

somebody finna have to put a ??? to his momma

I dont tolerate suckas who be tryin' me,

it take a special typa nigga to defies me,

similar to 8ball and mjpg, been comin out hard since

'specially when i look at tha mac in tha black cadillac,  
and tha bubbles in tha hummer truck,  
when you see a nigga cruise through,  
niggas try to jack you and loose my coup is by the  
kennel wheels,  
and mothafuckas wanna take my style,  
cause niggas out here know i'm only fuckin wit tha  
bonnet grills,  
and the haters wanna see me fall,  
how can i let y'all niggas play me,  
shited on them good,  
then pull up from my vehicle while bumpin 8ball and
