

## Surreal "Distance"

Visit "[Distance](#)" on [MotoLyrics.com](http://MotoLyrics.com)

And it's all nice  
And it's all fine  
And it's all right  
From a distance

And it's alright  
And it's all fine  
And it's all nice  
From a distance

Wake up to the sound of cocker do  
Dole do hit earth like comets do  
When you seem to be out of rocket fuel  
And a jolly mood has switched to a sonic blue  
Open eyes can see each molecule  
And reveal a sight that's horrible  
Grey skies and lies seen topical  
As optimising becomes historical  
It's when you wanna move  
But it's impossible  
To shake off what's on top of you  
When you got to prove u can honour you  
But u fall at every obstacle  
And your oracle  
Tells you not to do everything that you want to do  
So a distorted you is walking through  
Life's valley in awkward shoes

It's a beautiful girl in a beautiful dress  
But under glorious eyes hides a beautiful mess  
It's a view of the world from a rocket in space  
Where you see land and seas not atomic fuelled hate

It's a beautiful girl in a beautiful dress  
But under glorious eyes hides a beautiful mess  
It's a view of the world from a rocket in space  
Where you see land and seas not atomic fuelled hate

And it's all nice  
And it's all fine  
And it's alright  
From a distance

And it's alright  
And it's all fine  
And it's all nice  
From a distance

It's when last night was marvellous  
We were as hi as a marshon up  
Hi doing the dance of love  
While sipping a glass of lust  
But now were crushed like carcass dust  
Coz now it feels like a basking shark has sparred with  
us  
Yeah it's a bastard bruv  
It's trying to master your art fast  
When your brush starts to rust  
It's wen you wanna move  
But it's impossible to shake off wots on top off you  
So you get up to run but your laces are tide  
All the faking and hating has shaken your pride  
It's a typical guy  
Trying to fly a difficult flight  
It's wen you're living a lie  
Down a AA meeting sipping a pint  
It's when it don't make no sense  
And life seems static like stone henge  
And the birds whistling and singing  
Where you're living seem tone deaf  
It's wen you're on the home bend  
But who knows where the road ends  
So we hold heads hi to the skies  
And squint eyes to blur lies

It's a beautiful girl in a beautiful dress  
But under glories eyes hides a beautiful mess  
It's a view of the world from a rocket in space  
Where you see land and seas not atomic fuelled hate

It's a beautiful girl in a beautiful dress  
But under glories eyes hides a beautiful mess  
It's a view of the world from a rocket in space  
Where you see land and seas not atomic fuelled hate

And it's alright  
And it's all fine  
And it's all nice  
From a distance
