Visit "[These Silhouettes](#)" on MotoLyrics.com

I've talked to the angels,
They can't make it out tonight,
They crossed their hearts and
Hoped we make it out alive.

That dress is perfect for,
This dance on the ballroom floor
Too bad it ends in tragedy,
Please tell me what you're thinking
Or are you as scared as me?

Were going down
There's nothing that can stop this now.

Captain captain we are sinking
Can't you see that everyone's screaming?
We're going down we're going down.
When I die will you close my casket
Make it glass so I can see who cared.

You knew this all along;
Too little and too late.
These seas won't stop us now
Tonight we both go down.

Cover your eyes!

Captain captain we are sinking
Can't you see that everyone's screaming?
We're going down we're going down
When I die will you close my casket
Make it glass so I can see who cared

(Boys and girls, please close your eyes, for this time
both lovers die)
