And I love, and I love

Open your eyes what do you see  
Do you see someone  
Who wants you to be free  
Do you see me?

Oh, Open your ears what do you hear  
Do u hear the sound  
Of someone in despair  
Do u hear me?

Be here, be here  
Be here now with me  
Be here, be here  
Oh, be right here and I will remain

And I love, and I love

Open your heart what do you feel  
Do you feel someone  
Who feels the way you feel  
Do you feel me?

Oh, Open your ears what do you hear  
Do u hear the sound  
Of someone in despair  
Do u hear me?

Be here, be here  
Be here now with me  
Be here, be here  
Oh, be right here and I will remain

And I love, and I love
