I took a train to escape and don't mind  
on a free holiday to find  
nothing' s very clear  
we all belong here

So get on in I take a deep breath  
far away traffic jams sweetness  
but we still love second gear  
we all belong here  
oh oh oh

I get lost coming home all the ways  
after all the miracle replace  
when the dark clouds disappear  
we all belong here

I took a train to escape and don't mind  
on a free holiday to find  
nothing' s very clear  
we all belong here
