My crooked little heart

Always lies to me

It sells me out when you come around

Then never skips a beat

That same twisted heart

Commands my eager tongue

To tell you that I'll take you back

No matter what you've done

(Chorus)

My crooked little heart

Won't be happy 'til I'm torn apart

Every time I think we're finally through

My crooked little heart (my crooked little heart)

(My crooked little heart)

Leads me straight to you

(Yeah, yeah, yeah)

(Yeah, yeah, yeah, oh oh)

My poor troubled mind

Tells me I should leave

And it would have its way

If I had my say, but

It's not up to me

(Repeat Chorus)

(Bridge)

Maybe it's not just me

Who feels the way I do

Why else would you be here now

Unless you had one, too

So 'round and 'round we go

Until you're gone again

A day, a week, a month, a year

It never really ends

(Repeat Chorus)
