So you wanna be my love
So you really wanna be with me
(Don't you know I would leave you never?)
So you really wanna be with me
('Cause we got a love that'll last forever)
So you wanna be my love

Whatever the cost for you to remain,
I'll suffer the loss for love that's gained
Whatever it takes to be by your side
Even though we're apart, I know it's alright

CHORUS:

'Cause whenever I put aside
What I feel to be by your side
Forever is the word I hear
And together, there's no need for you to fear
'Cause if I ever were to leave you,
My love would be lost forever

Don't you know I would leave you never?
'Cause we got a love that'll last forever

Whatever is first, the love or the pain
There's nothing that's worse than love in vain
Whatever it takes to be here with you
Is worth any hurt that might go through

CHORUS

Don't you know I would leave you never?
'Cause we got a love that'll last forever

Love has a way of taking something simple
And making it so hard
I told you that true love was never easy
From the very start

CHORUS

Don't you know I would leave you never?
'Cause we got a love that'll last forever

'Cause if I ever were to leave you,
My life would be lost forever

Don't you know I would leave you never?
'Cause we got a love that'll last forever

My love would be lost forever

Don't you know I would leave you never?
'Cause we got a love that'll last forever
