(Scherrie Payne)

[TOGETHER:]

The years I spent with you
I could write a sermonette
And tell of all the pain
You gave since we met
I felt just like a child
When she's done something bad
Afraid to face the truth
'Cause she knows that mama's mad

[SCHERRIE:]

But I wasn't strong enough
Fools are never wise

[SUSAYE:]

You left me, it turned out to be

[TOGETHER:]

A blessing in disguise
Leaving me was the best
Thing you've ever done
In my heart I know I lost
In my mind I know I won

[SCHERRIE:]

Though I still hurt inside
I got back my pride

[TOGETHER:]

Huhhhhhhhhhh, I used to sit around
Feeling sorry for myself
Convinced that after you

[SCHERRIE:]

There could be

[TOGETHER:]

There could be no one else

[SCHERRIE:]

And I've torn down the walls, baby

[SUSAYE:]

And I'm laughing, laughing like a clown

[SCHERRIE:]

I'm drunk on wine and tears

[TOGETHER:]

I'm celebration bound

[SCHERRIE:]

Why, oh why, am I still crying

[SUSAYE:]

When God knows and I know

[TOGETHER:]

There's no denying (there's no denying)

Leaving me was the best

Thing you've ever done

In my heart I know I lost

In my mind I know I have won

[SCHERRIE:]

Love was misunderstood

It's more than just feeling good

[TOGETHER:]

Huhhhhhhhhhh, You left me here without a hope

And you thought I would never cope, now baby

You laughed and took back your heart

And you thought I would fall apart, now honey

Baby

Now honey

You left me here without a hope

And you thought I would never cope, now baby

You laughed and took back your heart

And you thought I would fall apart, now honey

You left me here without a hope

And you thought I would never cope, now baby

You laughed and took back your heart

And you thought I would fall apart, now honey

You left me here without a hope

And you thought I would never cope, now baby

You laughed and took back your heart

And you thought I would fall apart, now honey

Why, oh why,

[SUSAYE:]

Am I still crying

[SCHERRIE:]

When God knows and I know

There's, there's no denying (there's no denying)

[TOGETHER:]

Leaving me was the best (Leaving me, leaving me,
leaving me)

Thing you've ever done (Thank you, baby)

In my heart I know I lost (You've done me a favor)

In my mind I know I have won (I really won)

Leaving me was the best (Leaving me, leaving me,
leaving me)

Thing you've ever done (Thank you, baby)

In my heart I know I lost (Thank you, baby)

In my mind I know I have won (I really won)

Leaving me was the best

Thing you've ever done (Leaving me, leaving me,
leaving me)

In my heart I know I lost

In my mind I know I have won (I really won)
