Musica

Iâ'm on time to find my way to go
Itâ's not mine this face without eyes
When youâ're tired, you just have to try
To keep your mind under control
And believe you're your own

Iâ'm on time to find my way to go
Yeah, just fine, yourself again inside of me
When your one, you just have to try
To keep your mind under control
And believe you're on your own

Cause Iâ'm on time, on time
on time, to find my way to go
on time, on time, on time
to find my way to go
on time, on time, on time
to find my way to go
on time on time to find my way to go for you

Musica.
