Musica!

I'm on time to find my way to go
It's not mine this face without eyes
When you're tired, you just have to try
To keep your mind under control
And believe you're your own

I'm on time to find my way to go
Yeah, just fine, yourself again inside me
When your one, you just have to try
To keep your mind under control
And believe you're on your own

Cause I'm on time, on time
On time, to find my way to go
On time, on time
On time to find my way to go
On time, on time
On time to find my way to go
On time, on time, to find my way to go for you

Musica!
