You never believed in my love for you
You were always left with doubts on me
You always told me
Babe, are you sure
That it's me you love
For the rest of your life

(Chorus)

Distance never made me give 100% for us
But now I'll sacrifice and leave it all behind
Distance never made me give 100% for us
But now I'll sacrifice and leave it all behind

No more farewells
Or a heart full of tears
Pain of distance
Now there's nothing to separate us

I wanna testify my love for you
I wanna prove I'm for real
My heart keeps on beating strong for you

(Chorus)

Distance never made me give 100% for us
But now I'll sacrifice and leave it all behind
Distance never made me give 100% for us
But now I'll sacrifice and leave it all behind

So that you'll see I'm for real with you
And see I'll give all for you
There's nothing better than being with the one you
love
You'll see I'm for real with you
And see I'll give all for you
