### "If I Were A Weapon"

Visit "[If I Were A Weapon](#)" on MotoLyrics.com

If I were a weapon you said I'd be a gun lethal at close range i guess but I feel more like a needle with silencer and stun always pulling on the thread always making the same point again and wondering if you heard what I just said a hammer's what you'd be blunt and heavy at the end if you were a weapon but i've concealed a weapon and coming down on me in a pocket knife attack all folded up inside until you see the shine ooh and then you'll want it back if I were a weapon lethal at close range I guess you said i'd be a gun w silencer and stun well, if I am that weapon I am pointing now at you so just put down the hostage and we'll talk it down until we see this through
