Let me dive to the bottom of the ocean  
Free of all rules and laws of mankind  
Let me climb to the top of a mountain,  
Far from all fights and cruelty

Where is the truth  
Where is the love

If we observe the world from a distance  
Reality leaves us with questions

Why do we hurt the ones we love  
Where is the friendship  
Why do we always choose the easy way out  
And tomorrow we'll regret our choice  
Let's open the door and let love and truth in

Like the moon  
Lights up the planet earth  
That's how our eyes shows us good and bad  
Creatures, let's relieve our conscience  
Only then can we make the world a better place

If we observe the world from a distance  
Reality leaves us with many questions

Why do we hurt the ones we love  
Where is the friendship  
Why do we always choose the easy way out  
And tomorrow we'll regret our choice  
Let's open the door and let love and truth in

Today reality is our fear  
The way we handle the world  
To free our planet  
Let's give a piece of our lives  
For the good of our children  
Let's make a world where all creations live in harmony  
with nature

Why do we hurt the ones we love  
Where is the friendship

Why do we always choose the easy way, the easy way  
out  
And tomorrow we'll regret our choice  
Let's open the door and let love and truth in

Let's open the door and let love and truth in  
Truth and love in
