This rythm takes me,  
To a place I thought I'd never see,  
This beat is what I live for.

So what would life be,  
If we couldn't move our feet?  
I wana hear the people scream.

I wana dance, I wana dance, I wana dance  
[909]  
I wana dance, I wana dance, I wana dance  
[city break high]

Get in the spotlight,  
Get in the circle,  
And dance this night away.

This tune's contagious,  
The dancefloor crowd is thickening,  
It's now or never baby.

Don't even bother with the bar  
[start dancing, start dancing]  
I know this night is gonna,  
Last forever.

I wana dance, I wana dance, I wana dance  
[909]  
I wana dance, I wana dance, I wana dance  
[city break high]  
[X2]
