In the forgotten ancient forest of evil  
Where the winter was eternal  
Once again the blood will drip  
From the shadow that hangs in the rope  
In the moon cursed grimly forest  
Where the winter was eternal  
The painful screams echoes  
In the dark forgotten sky  
Once again the moon glows clearly  
As the tears once again touched your lips

The winds of deeply sorrow  
Deep as the deepest ocean  
In the goul-haunted paths of the forest  
Where a man used to walk  
Long time ago he were totally missing, gone  
After few years he were forgotten  
But he has now been found  
Totally dismembered and buried under leaf

A corpse is found with all it's bones broken  
Centuries ago the beast ripped his heart out  
The time has come for the return  
Alone in the night I walk... waiting
