Far in infernal forest dark and old  
For you may some vault unfold  
Where love is ready to welcome your sacrifice  
Where the mystic moon is ready to welcome your eyes  
Your eyes...

Your eyes in this forest  
Your eyes in this forest  
Your eyes in this forest  
In this infernal forest

Your destiny is in my arms  
Only flower in this forest  
I want to touch your face  
With my hands wrapped by flames  
Where love is ready to welcome your sacrifice  
Where the mystic moon is ready to embrace your eyes  
Your eyes...

Your eyes in this forest  
Your eyes in this forest  
Your eyes in this forest  
In this infernal forest

Your eyes in this forest  
Your eyes in this forest  
Your eyes in this forest  
In this infernal forest
