

Deee-Lite "Electric Shock"

Visit "[Electric Shock](#)" on MotoLyrics.com

Feel the music
Can you feel it
Move your body
Feel the music
Yes you can feel it, feel it
Move your body

You're funky and you never stop
It's like electric shock
Criss cross circulation
Throughout every nation

Feel the music
Can you feel it
Move your body
Feel the music
Yes you could feel it, feel it
Move your body

Move your body, move your body
Move your body, move your body
Move your body, move your body

Circulate, circulate
Circulation
All around
All around the nation

Running through
Running through your body
Mother Earth
Mother Earth creation

Can you feel it
Electricity running through your body
Can you feel it
Electricity running through your body

Everybody yeah
Get us off your feet
off your feet, yeah

It's time to scream out loud, yeah
It's time to celebrate, yeah
We are all conductors of electric groove
Got to take you higher
Feel your every groove

Feel the music
Can you feel it
Move your body
Feel the music
Yes you can feel it, feel it
Move your body

Move your body, move your body
Move your body, move your body
Move your body, move your body

Move your body, move your body
Move your body, move your body
Move your body, move your body

Circulate, circulate
Circulation
All around
All around the nation

Running through
Running through your body
Mother Earth
Mother Earth creation

Circulate, circulate
Circulation
All around
All around the nation

Running through
Running through your body
Mother Earth
Mother Earth creation

Wanna feel it, electricity running through your body
Can you feel it, electricity running through your body
Can you feel it, electricity running through your body
