You are really something  
I don't believe you  
All you do is talk...

So...  
Why don't you try  
In that sweet little way  
Not to say all those words  
That always get in your way...

Can you tell me why...  
We're like fanciers?  
We're pretending there's a way  
To make believe again

All the time...  
We've been waiting  
Never know we went to look  
Into each others eyes

And I say...  
Oh-oh, oh-oh  
Baby this time...  
Oh-oh, oh-oh  
You have to be mine...

Oh-oh, oh-oh  
We're drifting apart...  
Oh-oh, oh-oh  
Some time for your heart...

Carry on...  
With your talking  
Should I tell you when to stop  
Or are you going to try?

It won't last...  
Any longer  
You know I can live without it  
Just as much as you

And I say...

Oh-oh, oh-oh  
Oh-oh, oh-oh  
Baby this time...

Oh-oh, oh-oh  
Oh-oh, oh-oh  
You gotta be mine...

So don't talk about it  
Love me...  
Don't talk about it  
Love me...

What you gonna do without me?  
All night long...

I'm gonna touch you and feel you  
And love you, believe me...

I know you cannot do without it  
All night long...

Oh-oh, oh-oh  
In your own way...  
Oh-oh, oh-oh  
Try not to say...

Oh-oh, oh-oh  
We're drifting apart...  
Oh-oh, oh-oh  
This time could be the last...

You gotta tell me why...  
We're like fanciers?  
We're pretending there's a way  
To make believe again

All the time...  
We've been waiting  
Never know we went to stop  
To talk and laugh again

And I say...  
Oh-oh, oh-oh  
Oh-oh, oh-oh  
Baby this time...

Oh-oh, oh-oh  
Oh-oh, oh-oh  
You gotta be mine...

So don't talk about it  
Love me...  
Don't talk about it  
Love me...

What you gonna do without me?  
All night long...

I'm gonna touch you and feel you  
And love you, believe me

I know you cannot do without it  
All night long...

Oh-oh, oh-oh  
Try not to say...  
Oh-oh, oh-oh  
We're drifting away...

Oh-oh, oh-oh  
Baby this time...  
Oh-oh, oh-oh  
You gotta be mine...

It's a real waste  
That we have to live our lives  
Away from each other...

What will you do in the night  
When I'm not there?  
You'll be after a dream  
After a dream...

This time could be the last...

Don't talk about it  
Love me...  
Don't talk about it  
Love me...

What you gonna do without me?

All night long...

Don't talk about it  
Love me...  
Don't talk about it  
Love me...

How you're gonna stand the night on your own?

All night long...

Don't talk about it  
Love me...  
Don't talk about it  
Love me...

What you gonna do without me?

All night long...

Don't talk about it  
Love me...  
Don't talk about it  
Love me...

How you're gonna stand beside me?

All night long...

Don't talk about it  
Love me...  
Don't talk about it  
Love me...

Baby, how you're gonna to make it without me?

All night long...

Don't talk about it  
Love me...  
Don't talk about it  
Love me...

All night long...
