

Sweet "Burn On The Flame"

Every time I look into your eyes
You make feel alright
Every time you whisper sweet surprise
You make feel alright
Alright, Alright
Love me light my fire
Burn on the flame
Touch me take me higher
I'll go insane
Every little word I say to you
I make you feel alright
Every single moment I'm with you
I make you feel alright
Alright, Alright
Love me light my fire
Burn on the flame

Love me light my fire
Burn on the flame
Touch me take me higher
I'll go insane
