You crawled into my bed  
Like a cockroach  
The things you said  
Made me lose my head  
Like a waterfall  
You've got a mouth  
Like a DC ten  
But I love you

You've got me in your arms  
And your special charms  
My yah ah yah  
You, ya got my head in circles  
Oh, loved ya  
But I don't want nobody but you

You fucking laugh at my inhibition  
You made a fuss 'bout my oedipus  
From my mothers's side  
You feel away like a sherman tank  
But I love you

You're gonna take me there  
I don't really care  
My yah ah yah  
You got my head in circles  
Oh, loved ya  
And i don't want nobody but you

Till you run to me you bring your Mama  
The way she freaks gives me the creeps  
She's a mainline ma'am  
You've got to know  
What you're doin' to your Daddy  
'Cos I love you  
You've got me in your arms  
Ooh your precious charms  
Ah yah ah yah  
You, ya got my head in circles  
Uh, loved ya
