I met the healer in the twilight of my life  
He was the purity in my madness side  
He take me far beyond the sunshine and the snow  
My faith in him ignites a charismatic glow

Cure me, cure me, cure me  
Cure me, cure me (Repeat 4 times)

He leads me through the twisted chasms of my mind  
He saved me from the fated final sacrifice  
He spoke to me with the palm of his hand  
I hear you calling  
I hear you calling  
I hear you calling  
I hear you calling

Deliver me, deliver me, deliver me, deliver me  
Deliver me, deliver me

I am the healer in the twilight of your life  
I am the purity in your madness side  
Cure me, cure me, cure me,  
Cure me, cure me (Repeat 4 times)

I speak to you with the palm of my hand  
I am the healer  
I am the healer  
I am the healer  
I am the healer

Deliver me, deliver me, deliver me, deliver me  
Deliver me, deliver me  
Healer (Repeat till fade)
