Smiling eyes in a sea of faces
Stealing time for secret places
Making love in the afternoon

Chorus

This is the third stone from the sun
He made it for everyone
This is the third stone from the sun
He made it for everyone
Mother earth is calling you
Mother earth is calling you
Mother earth is calling you, today

Rolling stones should rock together
Ride the storm cloud crystal weather
Silver sun when the day is done

Chorus

This is the third stone from the sun
He made it for everyone
Mother earth is calling you
Mother earth is calling you
Mother earth is calling you, today
