Never too young
Never too young

Growin' up, can take so long
Everything, you do is wrong
They don't let you, out at night
And nothing that, you do is right

You know when you hear it
You gotta be near it

Chorus
Never too young
Never too young
Never too young to feel your soul
Cut your teeth on rock & roll
Never too young

When you feel, you're in a cage
Out of bounds, underage
Magazines, you have to hide
Videos, that you're denied

You know when you hear it
You gotta be near it

Chorus
