I was a young boy  
Yeah she was young too  
So in love but they don't understand  
Games that we played  
Blue shadows in a doorway  
Stealing time forbidden kisses  
I wanted to stay but I had to go away

Chorus  
Silverbird come take me home to you  
Silverbird come take me home to you

Well it's been five years  
Unjustified years  
Other girls that just don't make it  
Face to face with you  
Red sunset through my window  
I won't sleep tonight I'm coming home  
Please let it be that you're waiting there for me

Chorus
