If you don't go down on me someone else will

So tired of your trying  
Take it as it comes  
You've been hangin' round all weekend  
I guess i'd better give you one

If you don't go down on me someone else will

You love me in the kitchen  
You love me in the hall  
But when you're in the dressing room  
You love anyone at all

If you don't go down on me someone else will

You put on all your actions  
But i don't give a damn  
Just give me satisfaction  
Cause that's just where i am

If you don't go down on me someone else will
