You've got the funniest way of showin' me
That you love me
You seem to never have time
To go out of your way
I finally catch you alone
You've got your mind on your money
I call you up on the telephone
But you only have time to say
Don't bother me now
I'm in a hurry
I gotta go, I got a show
Don't bother me now
I'll see you Monday
But I don't know
I think I'm losin' my voice
Still you don't hear me
I'm sayin' everything twice
Or nothin' at all
I think it's time that we talk
Before it turns into trouble
We gotta work this thing out
But you only have time to say
Don't bother me now
I'm in a hurry
I gotta go, I got a show
Don't bother me now
I'll see you Monday
But I don't know
You want a love that will last forever
Then take the time to say
Instead of living
You're giving you life away
Don't bother me now
I'm in a hurry
I gotta go, I got a show
Don't bother me now
I'll see you Monday
But I don't know
