"Sing For The Melody"

Visit "[Sing For The Melody](#)" on MotoLyrics.com

Everybody sing for the melody
Everybody sing it in harmony
Everybody sing for the melody
Everybody sing it in harmony
And it won't be long until hapiness
Is a song in every one of us
Do you have a dream that you'd like to find?
Do you have a vision inside of your mind?
So far away from any place you know
Maybe I got somethin' that you should know
There's power in me I've got to let go
'Cause maybe I'm no ordinary man
Let me take you for a ride with me
And I'll show you what you wanna see
You may only have one chance to see
All the beauty of the symphony
Help me sing my melody
Everybody listen to the music
Everybody sing for the melody
Everybody sing it in harmony
Everybody sing for the melody
Everybody sing it in harmony
And it won't be long until hapiness
Is a song in every one of us
