"Find Your Way"

Visit "[Find Your Way](#)" on MotoLyrics.com

Hurry to find your hero
Fan through the magazines
'Cause heroes die of fame and lonely hearts
Worry about your waistline
Worry for a lover's smile
All because you lack the love inside

We only came to let you know
There's only one way to go
And that's to the Savior
We only came to let you know
There's only onw way to go
And that's to the Savior
Find your way
Find your way
Find your way
Find your way

Carry the weight of caring
For everybody else
See if the load won't drive you to your knees
Savor your best kept secrets
All with a trusted friend
See if your sins won't find the front page news

We only came to let you know
There's only one way to go
And that's to the Savior
We only came to let you know
There's only one way to go
And that's to the Savior
Find your way
Find your way
Find your way
Find your way
