Got to believe in somethin,
Got to believe that somethins there;
Got to believe in someone,
Got to believe that someone cares for you.

Got to believe in somethin,
Got to believe that somethins there;
Got to believe in someone,
Got to believe that someone cares for you.
Got to believe.

Cause if nobody cares,
Then theres nothing to share
Why are you so afraid?
If were born just to die,
Well, then why even try
Are you living to take the blame?

Why dont you make up your mind?
Keep on seeking, you will find.
Believe it, oh, believe it!
Even though its not your style,
Think on it a little while,
Believe it, oh, believe it!
REPEAT
