"WHAT'S WRONG"

What's wrong in our schools?

Politicians are blowing their cools

Over they who refuse to follow the rules

Though they should be separate dealings What's
wrong at the zoo?

The animals sense our fear showing through

Our facade yet there's not a thing they can do

It's hurting their poor helpless feelings

What's wrong?

CHORUS:

What is wrong?

What is wrong?

What 's wrong with our folks?

Strong and solid as hundred year oaks

So firm in their ways

They think we are jokes

They just don't know why

What's wrong in their head?

Won't they just try to see it once our way instead?

If they did then there wouldn't be any more dead

No reason to cry

CHORUS

What's wrong in your heart?

Do you feel that soon mankind and reason will part?

As each day worsens you fear we will start

On that anxiously dark endless journey

What's wrong with this top?

As it spins each year gives us a worsening crop

Of hatred that one day could cause it to stop

A lesson we all could be learning

What's wrong?

CHORUS (repeats)
