Here I am and it's two am it's another sleepless night
Well I sit alone as I write this song for you tonight
And I know I can't go back and change what I have
done
Please baby, please don't take your love, don't you run

Same situation just different faces and names
And I've got no one, no one but myself to blame
And I've lost what can't be matched by money or fame
I lost your love, no one but myself to blame

Don't want no sympathy, don't want to hear you say it's
ok
Cause I've done you wrong and no words can ease the
pain
But if you decide it's your love you want to show
I'll be waiting, just let me know, just let me know

Same situation just different faces and names
And I've got no one, no one but myself to blame
And I've lost what can't be matched by money or fame
I lost your love, no one but myself to blame

Well I never meant to hurt you
And I never meant to cause you any pain
All I wanted was to love you

Here I am and it's three am and it's another sleepless
night
