This is the start  
This is your heart  
This is the day you were born  
This is the sun  
These are your lungs  
This is the day you were born

And I am always yours

These are the scars  
Deep in your heart  
This is the place you were born  
This is the hole  
Where most of your soul  
Comes ripping out  
From the places you've been torn

And it is always yours  
But I am always yours

Hallelujah!  
I'm caving in  
Hallelujah!  
I'm in love again  
Hallelujah!  
I'm a wretched man  
Hallelujah!  
Every breath is a second chance

And it is always yours  
And I am always yours
