Been scared and lonely
I've asked myself
Is something wrong with you
My girlfriend told me
I need some time alone to deal with issues

Something makes me carry on
It's difficult to understand
What I always wanna find

I do it for the drugs
I do it just to feel alive
I do it for the love
That I get from the bottom
Of a bottle

You always call me
And ask me how I make it through the day
I'm always fallin
I guess it's just god's way of
Making me big

Something makes me carry on
It's difficult to understand
What I always wanna find

I do it for the drugs
I do it just to feel alive
I do it for the love
That I get from the bottom
Of a bottle

I do it for the drugs
I do it just to feel alive
I do it for the love
That I get from the bottom
Of a bottle

And I,
I wonder why I try
And I,

Wonder why I bother
And I,
I wonder why I cry
Why I,
I go through all this trouble

I do it for the drugs
I do it just to feel alive
I do it for the love
That I get from the bottom
Of a bottle

I do it for the drugs
I do it just to feel alive
I do it for the love
That I get from the bottom
Of a bottle
