Hoes they always be in my ear
Girl I got a problem solver
Lean back and swallow
Make this liquor all dissappear
Drop it, Drop it
This your chance girl
Money all in my pants girl
It's your night so

[Hook: Swizz Beatz (Chris Brown)]

[Verse 2: Swizz Beatz]

This goes out to the 305's

718's I mean all the states
Came back man with the drop top
You better call the cops
Baby girl, just stop
This white chain, ice
This traban motherf-cker, passed out
Man we on the floor all night
She wanna go crazy and plus dance like a white girl
Told you before it's me bitch
Y'all talk to much Y'all might be snitches
I don't do the dirty work, yeah I do the dishes
I just lay the f-ck back and count my digits
Bring it back, I could bug out, go crazy, I'm out of my
mind
Got Ciroq on deck, got Patron on deck
Y'all crazy man you had to do (?)
All on the floor with the spandex on
She got the red bottoms on, man she get it on
Man I get it on, I just get it on with the best of flow

[Bridge]

Parties in your glass you fill it up until you hit the roof
Now hit the dancefloor that liquid courage always got
you
Throw your hands up in the air
Like I'm the life of the party party
Like I'm the life of the party party
Like I'm the life of the party party

[Verse 3: Ludacris]

Luda! (Now dance like a white girl)
I don't know what be
She dancing too but she killing that sh*t
She acting like a white girl drunk
And she outta control but I'm feeling that b*tch
Drop it like you owe it to me
Give it to me like it's mine in the first place
Lady in the street, freaky in the bed
Wild in the party, professional in the workplace
She independent and sexy I think I love her man
She keep it clean but get messy under the cover man
Dirty yeah you know it clap your hands
If you dirty and you know it clap your hands
She know how to do it like she the one who taught the
class
That thing so fat I need somewhere to sit my glass
It's got a whore-a-million uses
And I get all the exclusives
And damn that body so ruthless
Now dance to what Swizz producing

[Bridge]

Parties in your glass you fill it up until you hit the roof
Now hit the dancefloor that liquid courage always got
you

Throw your hands up in the air
Like I'm the life of the party party
Like I'm the life of the party party
Like I'm the life of the party party
Just dance like a white girl

[Hook: Swizz Beatz (Chris Brown)]
