tune

tune for the poparazzi

tune for the poparazzi

this is a tune the poparazzi
the who's who and the so and so's
this is a tune for the graven images of marilyn manroe
we saw your face on the magazine
we heard the song on the mp3

chorus

your stuck in my head
stuck in my head
stuck in my head
you can close your ears and your eyes
but the pop will never leave you alone

tune for the poparazzi

leave me alone
with your social lingo
you try so hard to stay on top
leave me alone
with your little jingle
with your picture perfect pop
we read the article in seventeen
we saw the video on mtv

(chorus)

pop will never leave you alone
noooo

this is a tune for the late nervana
the teen spirit rock and roll
this is a tune for the velvet elvis's
on the 90210

i thought my eyes were gonna get off clean
till i read your lips on the tv screen
you were busy saying what you didn't mean
now everyone is singing along with your ridiculous
song

you got it stuck you
got it stuck in my head
stuck in my head
stuck in my head
you can close your ears and your eyes
you can close your ears and your eyes
but the pop will never leave you alone
