Tonight!

Tonight!

I'll rise

I'll fall

I'll fail you all

We built these cities to stand so tall

We've lost our walls

I don't want to lose it, coming down

With the whole world upside-down

I don't have a soul to trust in now

With the whole world upside-down

We are one, tonight!

And we're singing it out!

We are one, tonight!

And we're dreaming out loud!

And the world is flawed

But these scars will heal

We are one, tonight!

Tonight!

Tonight!

Two eyes

One tongue

I've come

Undone

I'm no victim

I paid these dues

I came to lose

I don't want to fight about it now

With the whole world upside-down

I don't have a soul to trust in, now

With the whole world upside-down
We are one, tonight!
And we're singing it out!
We are one, tonight!
And we're dreaming out loud!

And the world is flawed
But these scars will heal

We are one, tonight!
Tonight!
Tonight!
Tonight!
Tonight!
Tonight!

I don't want to lose a common ground
With the whole world upside-down
I don't want to fight about it now
And the world was burning out

Let's slow the evening down
Slow it down
Slow down
Please slow down
Down
Down

The stars are comin' out!

We are one
We are one
We are one
We are one tonight
We are one tonight
And were singing it out
We are one tonight
And were dreaming out loud
And the world is flawed,
But these scars will heal!
