Feeling like a refugee
Like it don't belong to me
The colors flash across the sky

This air feels strange to me
Feeling like a tragedy
I take a deep breath and close my eyes
One last time
One last time

Storms on the wasteland
Dark clouds on the plains again
We were born into the fight

But I'm not sentimental
This skin and bones is a rental
And no one makes it out alive

Yeah

Until I die I'll sing these songs
On the shores of Babylon
Still looking for a home
In a world where I belong

Where the weak are finally strong
Where the righteous right the wrongs
Still looking for a home
In a world where I belong

Yeah

Feels like we're just waiting, waiting
While our hearts are just breaking, breaking
Feels like we've been fighting against the tide

I wanna see the earth start shaking
I wanna see a generation
Finally waking up inside

Yeah

Until I die I'll sing these songs
On the shores of Babylon
Still looking for a home
In a world where I belong

Where the weak are finally strong
Where the righteous right the wrongs
Still looking for a home
In a world where I belong

A world where I belong

This body's not my own
This world is not my own
But I still can hear the sound
Of my heart beating out
So let's go boys, sing it loud

And on the final day I die
I want to hold my head up high
I want to tell You that I tried
To live it like a song

And when I reach the other side
I want to look You in the eye
And know that I've arrived
In a world where I belong

In a world where I belong
In a world where I belong
Where I belong
Where I belong

Where I belong
Yeah
Where I belong
Yeah!

I still believe we can live forever
You and I we begin forever now
Forever now
Forever
I still believe in us together
You and I we're here together now
Together now
Forever now
Forever now
Forever now

Forever

Forever
